RE: EPA ARCS Contract No. 68-W9-0015
EPA Work Assignment No.: 27-6JZZ
EPA Site Inspection Prioritizations
PREscore Package - Old Lufkin Creosoting
Document Control No.: 04603-027-0271

Dear Mr. Sierra:

Roy F. Weston, Inc. (WESTON®) is pleased to present the PREscore package completed for the Old Lufkin Creosoting site (TXD008063661) located in Lufkin, Angelina County, Texas. This effort was part of the Site Inspection Prioritization Work Assignment completed for various sites in EPA Region VI. The PREscore package for the site is enclosed.

The PREscore for the site is 0.85. The groundwater pathway drove the overall site score with a pathway score of 1.69 based on the presence of drinking water wells completed in the same formation as on-site observed releases to monitor wells. The soil exposure pathway scored 0.03 due to minimal targets. The surface water pathway scored a 0.00 since the PPE is located approximately 2.4 miles away. The air pathway scored a 0.00 since there are no current site activities that could potentially release contaminants to the air.

If you have any questions or require additional information, please call us at (713) 621-1620.

Very truly yours,

ROY F. WESTON, INC.
